# MEDICAL STAFF

## ST. LUKE'S HOSPITAL

### 1939

#### OFFICERS OF THE MEDICAL STAFF

S. W. McARTHUR, M.D. . . . . *President*  
 WILL F. LYON, M.D. . . . . *Vice President*  
 GEORGE K. FENN, M.D. . . . . *Secretary*  
 GEORGE H. COLEMAN, M.D. . . . . *Treasurer*

#### HONORARY MEDICAL STAFF

W. M. HARSHA, M.D.	S. C. PLUMMER, M.D.
W. B. FISK, M.D.	C. W. HOPKINS, M.D.
R. B. PREBLE, M.D.	ARCHIBALD CHURCH, M.D.
T. MELVILLE HARDIE, M.D.	NORVALL H. PIERCE, M.D.
F. X. WALLS, M.D.	

#### SENIOR ATTENDING SURGEONS

FRANK E. DAVID, M.D.	HAROLD E. JONES, M.D.
WM. R. CUBBINS, M.D.	SELIM W. McARTHUR, M.D.
CLEMENT J. DeBERE, M.D.	HARRY E. MOCK, M.D.
WILLARD VAN HAZEL, M.D.	GEZA DeTAKATS, M.D.
T. L. HANSEN, M.D.	WILL F. LYON, M.D.

#### ASSOCIATE ATTENDING SURGEONS

A. REID MORROW, M.D.	G. V. PONTIUS, M.D.
F. L. McMILLAN, M.D.	C. G. SHEARON, M.D.
JOHN D. ELLIS, M.D.	CHARLES E. SHANNON, M.D.
BURTON R. BANCROFT, M.D.	HAROLD I. MEYER, M.D.
W. H. HAZLETT, M.D.	E. C. HOLMBLAD, M.D.
R. F. MacDONALD, M.D.	

#### ASSISTANT ATTENDING SURGEONS

HART E. FISHER, M.D.	JOHN LINDQUIST, M.D.
T. NORDLANDER, M.D.	R. A. JACOBSON, M.D.
M. G. FLANNERY, M.D.	GRAHAM KERNWEIN, M.D.
J. M. L. JENSEN, M.D.	E. LEE STROHL, M.D.
W. G. DIFFENBAUGH, M.D.	

#### SENIOR ATTENDING PHYSICIANS

ARTHUR R. ELLIOTT, M.D.	JOSEPH A. CAPPS, M.D.
W. P. FINNEY, M.D.	N. C. GILBERT, M.D.
GEORGE K. FENN, M.D.	GEORGE H. COLEMAN, M.D.
GEORGE W. SCUPHAM, M.D.	GRANT H. LAING, M.D.
ROBERT W. KEETON, M.D.	

#### ASSOCIATE ATTENDING PHYSICIANS

LAURENCE H. MAYERS, M.D.	FRED E. BALL, M.D.
THOMAS J. COOGAN, M.D.	CLARENCE F. G. BROWN, M.D.
CARL O. RINDER, M.D.	CARL A. JOHNSON, M.D.
FARIS F. CHESLEY, M.D.	

ASSISTANT ATTENDING PHYSICIANS

N. F. FISHER, M.D.	HOWARD WAKEFIELD, M.D.
RICHARD H. YOUNG, M.D.	HAROLD I. SIPPY, M.D.
A. WILSON SMITH, M.D.	RICHARD B. CAPPS, M.D.
GEORGE LEROY, M.D.	

SENIOR ATTENDING GYNECOLOGISTS

HAROLD O. JONES, M.D.	MATTHEW J. KILEY, M.D.
EUGENE A. EDWARDS, M.D.	

ASSOCIATE ATTENDING GYNECOLOGIST

JOHN I. BREWER, M.D.

ASSISTANT ATTENDING GYNECOLOGISTS

EDWARD M. DORR, M.D.	R. R. GREENE, M.D.
----------------------	--------------------

SENIOR ATTENDING OBSTETRICIANS

EUGENE M. CAREY, M.D.	HAROLD K. GIBSON, M.D.
JAMES A. GOUGH, M.D.	JAMES E. FITZGERALD, M.D.

ASSOCIATE ATTENDING OBSTETRICIANS

D. J. LADD, M.D.	GEORGE C. FINOLA, M.D.
------------------	------------------------

SENIOR ATTENDING OPHTHALMOLOGISTS

FRANK E. BRAWLEY, M.D.	E. K. FINDLAY, M.D.
E. V. L. BROWN, M.D.	

ASSOCIATE ATTENDING OPHTHALMOLOGISTS

RICHARD GAMBLE, M.D.	SYDNEY WALKER, M.D.
LOUIS BOTHMAN, M.D.	EMIL DEUTSCH, M.D.

ASSISTANT ATTENDING OPHTHALMOLOGISTS

EARL L. VERNON, M.D.	JAMES WILSON CLARK, M.D.
E. A. VORISEK, M.D.	

SENIOR ATTENDING OTOLOGISTS, LARYNGOLOGISTS AND RHINOLOGISTS

EDWARD P. NORCROSS, M.D.	WALTER H. THEOBALD, M.D.
JAMES T. CAMPBELL, M.D.	JOHN A. CAVANAUGH, M.D.
HORACE R. LYONS, M.D.	

SURGEON-IN-CHARGE DEPARTMENT OF PERORAL ENDOSCOPY

PAUL H. HOLINGER, M.D.

ASSOCIATE ATTENDING OTOLOGISTS, LARYNGOLOGISTS AND RHINOLOGISTS

A. J. COOMBS, M.D.	CHARLES J. KURTZ, M.D.
S. A. SCIARRETTA, M.D.	CLIFFORS L. DOUGHERTY, M.D.
PERCY J. ROSS, M.D.	

ASSISTANT ATTENDING OTOLOGIST, LARYNGOLOGISTS AND RHINOLOGIST

ALBERT H. ANDREWS, M.D.

SENIOR ATTENDING DERMATOLOGIST

EDWARD A. OLIVER, M.D.

ASSOCIATE ATTENDING DERMATOLOGIST  
E. M. SMITH, M.D.

ASSISTANT ATTENDING DERMATOLOGIST  
FRANK J. KENDRICK, M.D.

SENIOR ATTENDING ORAL SURGEON  
HERBERT A. POTTS, M.D.

ASSOCIATE ATTENDING ORAL SURGEON  
F. W. MERRIFIELD, M.D.

ASSISTANT ATTENDING ORAL SURGEON  
W. H. HOLMES, D.D.S.

SENIOR ATTENDING NEUROLOGICAL SURGEON  
ERIC OLDBERG, M.D.

SENIOR ATTENDING NEUROLOGISTS  
GEORGE W. HALL, M.D.                      ROLAND P. MACKAY, M.D.

ASSOCIATE ATTENDING NEUROLOGISTS  
ALFRED P. SOLOMON, M.D.              LEROY H. SLOAN, M.D.  
R. G. McMILLAN, M.D.              THOMAS L. FENTRESS, M.D.

SENIOR ATTENDING PSYCHIATRIST  
FRANCIS J. GERTY, M.D.

SENIOR ATTENDING PEDIATRICIANS  
STANLEY GIBSON, M.D.                      S. C. HENN, M.D.

ALFRED D. BIGGS, M.D.                      H. H. BOYLE, M.D.

ASSISTANT ATTENDING PEDIATRICIANS  
GEORGE BARNETT, M.D.              ROBERT E. WILLIAMS, M.D.  
S. S. SNIDER, M.D.                      C. E. STEPAN, M.D.

SENIOR ATTENDING UROLOGISTS  
LOUIS E. SCHMIDT, M.D.                      HARRY CULVER, M.D.  
T. P. GRAUER, M.D.                      W. J. BAKER, M.D.

ASSOCIATE ATTENDING UROLOGIST  
ANDREW McNALLY, M.D.

SENIOR ATTENDING ORTHOPEDIC SURGEONS  
HENRY B. THOMAS, M.D.              EDWIN W. RYERSON, M.D.  
FREMONT A. CHANDLER, M.D.              R. O. RITTER, M.D.  
FRED W. HARK, M.D.

ASSOCIATE ATTENDING ORTHOPEDIC SURGEONS  
CLAUDE N. LAMBERT, M.D.              HAROLD SOFIELD, M.D.  
MARCUS H. HOBART, M.D.

ASSISTANT ATTENDING ORTHOPEDIC SURGEON  
JOHN R. NORCROSS, M.D.

SENIOR ATTENDING PATHOLOGIST

EDWIN F. HIRSCH, M.D.

DEPARTMENT OF ROENTGENOLOGY

EDWARD L. JENKINSON, M.D., DIRECTOR

RADIUM THERAPIST

WM. L. BROWN, M.D.

DEPARTMENT OF PHYSICAL THERAPY

JOHN S. COULTER, M.D., DIRECTOR

DEPARTMENT OF ANAESTHESIA

MYRTA M. KNOWLES, M.D., DIRECTOR

PHARMACY

WILLIAM H. ZABEL, R.P.H.G., DIRECTOR

ADJUNCT STAFF

ADJUNCT SURGEONS

DWIGHT C. ORCUTT, M.D.  
CHESTER C. GUY, M.D.  
WM. M. McMILLAN, M.D.  
BEN W. WAGNER, M.D.  
ARTHUR H. CONLEY, M.D.

PAUL W. GREELEY, M.D.  
FREDERICK O. EGGERT, M.D.  
K. H. TANNEBAUM, M.D.  
CLARENCE K. JONES, M.D.  
F. W. SLOBE, M.D.

JAMES A. VALENTINE, M.D.  
CHARLES B. PUESTOW, M.D.  
ALFRED RASMUSSEN, M.D.  
ROBERT B. MALCOLM, M.D.  
W. T. CARLISLE, M.D.

ADJUNCT PHYSICIANS

ROBERT J. GAY, M.D.  
HERMAN P. GUNNAR, M.D.

C. O. MELICK, M.D.

Grad. St. Luke's Hospital School of Nursing, Chicago 1930; Attending Northwestern Univ. part time since 1938; Head Nurse Operating Room St. Luke's Hospital Chicago 1930-32; Supv. Operating Room Mt. Sinai Hospital, Chicago 6 mos. 1932; Ass't to Operating Room Supv. St. Luke's Hospital, Chicago 1932-37; Supv. in Charge of Orthopedic Nursing in Out Patient Department St. Luke's Hospital Chicago 1937-.

#### INSTRUCTORS

PRISCILLA PARKER, *Instructor in Sciences.*

Grad. Battle Creek College School of Nursing 1924; Univ. of Michigan 1925-27; P.G. course in Tuberculosis, Cook County Hospital Chicago 6 mos. 1932; B.S. College of Biological Sciences Univ. of Chicago 1934; Public Health Nursing 6 mos. Richmond, Indiana 1929; Instructor Practical and Theoretical Ohio Valley Hospital Steubenville, Ohio 1930-32; Ass't Supt. of Nurses, Columbia Hospital, Milwaukee, Wisconsin 1934-35; Instructor in Sciences St. Luke's Hospital, Chicago 1935-.

ROSEMARY WHAM, *Instructor in Nursing Arts.*

Grad. St. Luke's Hospital School of Nursing 1934; Student in the Dept. of

Nursing Education, Univ. of Chicago 1935-; General duty St. Luke's Hospital Chicago 1934-35; Head Nurse 1935-37; Night charge nurse 1937-38; Instructor in Nursing Arts 1938-.

MARIE KILLINGER, *Instructor in Nutrition and Cookery and Diet in Disease.*

A.B. Univ. of Illinois 1928; M.S. Univ. of Illinois 1929; Student Dietetic Training, Wesley Memorial Hospital 1933; Laboratory Technician Burnham City Hospital, Champaign, Ill. 1930-31; Laboratory Technician Pelton Clinic, Elgin, Ill. 1931-32; Therapeutic and Educational Dietitian Mercy Hospital Chicago 1934-36; Instructor in Nutrition and Cookery and Diet in Disease 1936-.

SARAH JANE CALEF, *Assistant to Instructor in Nursing Arts.*

Grad. St. Luke's Hospital School of Nursing Chicago 1938; At present studying at Northwestern Univ. Night School; Assistant to Nursing Arts Instructor St. Luke's Hospital, Chicago 1938-.

THELMA CORBY, *Assistant to Instructor in Nursing Arts.*

Los Angeles Junior College 1931-32; Grad. St. Luke's Hospital School of Nursing Chicago 1937; Student at Northwestern Univ. Night School 1938-; Night Charge Nurse St. Luke's Hospital Chicago 1937-39; Assistant to Instructor in Nursing Arts St. Luke's Hospital Chicago 1939-.

#### HEAD NURSES

DALLAS GRAHAM BAYNTON, *Head Nurse Main Building Operating Rooms.*

Grad. St. Luke's Hospital School of Nursing, Chicago 1931; Northwestern Univ. part time work 1938; Surgical Head Nurse E.N.T. Dept. St. Luke's Hospital Chicago 1932-35; Head Nurse Main Bldg. Operating Rooms May 1938-.

KATHRYN BEUCHAT, *Head Nurse Obstetrical Department Main 9.*

Grad. St. Luke's Hospital School of Nursing Chicago 1930; Part time student Northwestern Univ. 1931; Part time student Univ. of Chicago 1935; General duty St. Luke's Hospital 1930-31; Head Nurse Obstetrical Dept. Smith Memorial Bldg. 4 mos. 1931; Head Nurse Obstetrical Dept. Main 9 1931-.

BERNIECE MARIE BOIES, *Head Nurse E.E.N.T. Department and Bronchoscopic Department.*

Grad. St. Luke's Hospital School of Nursing Chicago 1927; Central Y.M.C.A. College part time work since Feb. 1939; Private duty 1927-34; Head Nurse Smith Memorial Bldg. St. Luke's Hospital Chicago 1934-37; Head Nurse E.E.N.T. Dept. and Bronchoscopic Dept. St. Luke's Hospital Chicago 1937-.

ELIZABETH L. BRIETUNG, *Head Nurse Smith Memorial Building Operating Rooms.*

Grad. St. Luke's Hospital School of Nursing Chicago 1932; General duty St. Luke's Hospital Chicago 1933-34; Relief for Night Supv. 6 mos. 1934; Head Nurse Smith Memorial Bldg. Operating Rooms 1934-.

EDITH R. ERICKSON, *Head Nurse Men's Private and Semi Private Floor M6.*

Grad. St. Luke's Hospital School of Nursing Chicago 1933; Private duty 1933-34; General duty Brewster Hospital, Holdrege, Nebraska 1934-36; General duty St. Luke's Hospital Chicago 1936-38; Head Nurse Men's Surgical and Medical, Private and Semi Private Floor Main 6 1938-.

LUCILLE ESCHENBACH, *Head Nurse Men's Ward Main 15.*

Carroll College Waukesha, Wisconsin 1922-23; Milwaukee Teachers College, Milwaukee, Wisconsin summer session 1923; St. Luke's Hospital School of

Nursing Chicago 1926; Univ. of Wisconsin summer session 1933; Univ. of Chicago, Dept. of Nursing Education fall and winter quarter 1937-38; Private duty Chicago 1926-29; Industrial Nurse Western Electric Company Chicago 1929-31; Indian Service, Shiprock, New Mexico 1931-32; General duty St. Luke's Hospital Chicago 1934-35; Head Nurse Smith Memorial Bldg. St. Luke's Hospital Chicago 1935-36; Ass't Instructor Nursing Arts St. Luke's Hospital School of Nursing 1936-37; Night Charge Nurse Smith Memorial Bldg. 1937-38; Private duty 1938-39; Head Nurse Men's Ward Main 15 1939-.

PAULA FENIMORE, *Head Nurse Psychiatric Floor, Smith Memorial.*

Tulane University, New Orleans, La., summer session 1934; Student Univ. of Chicago part time since 1935; Grad. St. Luke's Hospital School of Nursing Chicago 1937; Suture Nurse Smith Memorial Operating Rooms St. Luke's Hospital Chicago 1937-38; Head Nurse Psychiatric Floor 1938-.

FERN D. GIVENS, *Head Nurse C Floor Smith Memorial Building.*

Grad. Ravenswood Hospital School of Nursing Chicago 1928; General duty Ravenswood Hospital Chicago 1929-30; Public Health Nursing, City Health Dept. Bloomington, Illinois 1935-36; General duty St. Luke's Hospital Chicago 1936-37; Head Nurse C floor Smith Memorial 1937-.

ELOISE BUCHHOLZ GRANT, *Head Nurse Main Building Operating Rooms.*

Grad. St. Luke's Hospital School of Nursing Chicago 1933; P.G. course in surgery Cook County Hospital 1933-34; Head Nurse Main Bldg. Operating Rooms 1934-.

AUGUSTA ALVENA HELDT, *Head Nurse D Floor Smith Memorial Building.*

Grad. St. Luke's Hospital School of Nursing Chicago 1936; Cardiac Camp Nurse Sunset Camp, Antioch, Illinois 1936; Head Nurse Men's Surgical Ward 1936; General duty St. Luke's Hospital Chicago 1936-37; Head Nurse D Floor Smith Memorial 1937-.

BARBARA JEROME, *Head Nurse Main 11 Men's Ward.*

Morgan Park Junior College affiliated with Univ. of Chicago 1934-35; Grad. St. Luke's Hospital School of Nursing 1938; Head Nurse Main 11 Men's Ward St. Luke's Hospital Chicago 1938-.

MARGUERITE E. KILGAS, *Head Nurse Out Patient Operating Room Main 10 and Nose and Throat Treatment Room Main 10.*

Grad. St. Luke's Hospital School of Nursing Chicago 1932; Private duty 1932-34; General duty St. Luke's Hospital Chicago 6 mos. 1934; Head Nurse Smith Memorial St. Luke's Hospital Chicago 1934-37; Head Nurse Main Bldg. Operating Rooms 5 mos. 1937; Head Nurse Out Patient Operating Room Main 10 and Nose and Throat Treatment Room Main 10 1937-.

ROBERTA LAWSHA, *Head Nurse Main 14 Women's Ward.*

Grad. St. Luke's Hospital School of Nursing 1936; Head Nurse Main 14 Women's Ward Oct. 1936-.

MARGARET ELIZABETH McARDLE, *Head Nurse B Floor Smith Memorial Bldg.*

Grad. St. Luke's Hospital School of Nursing 1938; Student at Univ. of Chicago Mar. 1938; Head Nurse B Floor Smith Memorial 1938; Acting Health Director 1939-.

NAN MALONEY, *Head Nurse Main 8 Pediatric Department.*

Grad. St. Luke's Hospital School of Nursing Chicago 1932; Private duty 1932-33; General duty St. Luke's Hospital Chicago 1934-35; Private duty 4

mos. 1935; General duty Main 9 and Smith 6 Nurseries 1935-36; Formula Lab. on Main 8 and Nursery 1936-37; Stewardess on Rock Island Railroad 7 mos. 1937; Head Nurse Main 8 Pediatric Dept. 1937-.

ELIZA MARSKE, *Head Nurse Main 7 Private and Semi Private Women's Floor.*

Grad. General Hospital, Minneapolis, Minn. 1918; P.G. course in Obstetrics Chicago Lying In Hospital 1924-25; Chicago Univ. summer session 1931; Chicago Univ. Night School 1931-32; Supv. Contagious Hospital, Minneapolis 1918-20; Night Supv. General Hospital, Elkhart, Ind. 1921-23; Head Nurse Obstetrics, Michael Reese Hospital Chicago 1925-28; Head Nurse Main 7 St. Luke's Hospital Chicago 1928-.

EDNA FLETCHER SOLTAU, *Head Nurse Main Building Operating Rooms.*

Grad. St. Luke's Hospital School of Nursing Chicago 1937; General duty St. Luke's Hospital Chicago 1937-38; Head Nurse Main Bldg. Operating Rooms 1938-.

MARIE STEINKE, *Head Nurse Main 17 Private and Semi Private Floor.*

Graduate from St. Luke's Hospital School of Nursing Chicago 1937; General duty St. Luke's Hospital Chicago 1937-38, during which time relieved on C and E Floors for head nurses vacations; Head Nurse Main 17 1938-.

NEVA SUMMERS, *Head Nurse Smith 6 Obstetrical Department.*

Grad. St. Luke's Hospital 1937; General duty St. Luke's Hospital Chicago 1937; Ass't to Night Supv. St. Luke's Hospital Chicago 1937-39; Head Nurse Smith 6 Obstetrical Dept. Mar. 1939-.

## SCHOOL OF NURSING

## HISTORY ✓

ST. LUKE'S HOSPITAL was founded in February, 1864, under the leadership of Dr. Clinton Locke, Rector of Grace Episcopal Church 1859-1895. Later that same year the Hospital became incorporated. In the words of Dr. Locke "We found a small wooden house on State Street, near Eldridge Court, where by crowding we could put up seven beds. It was a pleasant little place with grass and flowers and one or two poplar trees." In 1871 the hospital moved about three blocks to Indiana Avenue and occupied a part of the present site.

The School of Nursing of St. Luke's Hospital was organized in 1885. Six nurses graduated in the first class. Through the efforts of the many friends of the hospital, still under the leadership of Dr. Locke, a well designed hospital was completed by 1891 with a capacity for 152 patients.

In June, 1893, the year of the Chicago World's Fair, a group of eighteen directors of nursing from prominent hospitals in the country, meeting together in a sitting room at St. Luke's Hospital through the invitation of Miss Katherine Lett, superintendent of nurses (at St. Luke's Hospital,) united themselves into a society named the American Society of Superintendents of Training Schools for Nurses, later to become the National League of Nursing Education.

An urgent need for a private patient pavilion developed and in 1908 the "George Smith Memorial" was erected on Michigan Avenue adding accommodations for 110 patients. In 1898 Stickney House was erected as a residence for nurses. Grace Church and St. Luke's Hospital had both survived the Chicago fire but in 1915 Grace Church with the exception of the beautiful Hibbard Chapel was completely destroyed by fire. The following year the Hibbard Chapel met the same fate.

A twenty-one story building on Indiana Avenue was completed in 1925 providing for over 400 patients. A portion of the older building still stands on Indiana Avenue but the new building occupies the greater frontage. In 1928, Grace Church, always so closely associated with the development of St. Luke's was rebuilt, adjoining to the south the Indiana Avenue Building.

In the spring of 1938, a small private department with capacity for 11 patients having nervous and mental disorders, was opened. St. Luke's is the first general private hospital in Chicago to care for psychiatric patients. The department has filled a very real need in the community and in the early summer of 1939 will be moved into new quarters with over twice the capacity.

St. Luke's Hospital renders to the public the double service of a private institution where most efficient and luxurious hospital, medical

and nursing attention may be enjoyed and at the same time expert care given free of charge to those unable to pay. The hospital is one of the member institutions to which citizens having hospital care insurance may come. The bed capacity including the private pavilion is 515.

Since the organization of the school of nursing over 1900 nurses have received diplomas. The founders of the school felt that a high grade of nursing service could be secured for the patients of St. Luke's Hospital by organizing a school where young women seriously interested in humanitarian service could be trained, not only for hospital work but for nursing in the community as well. Thus the purpose has been to provide thorough instruction and experience in the care of the sick and also instruction in the principles of health and hygiene to better serve the community in the many fields now open to registered nurses.

#### EDUCATIONAL FACILITIES ✓

The entire twelfth floor of the Main Building on Indiana Avenue is allotted to education and social activities of the School of Nursing, and consists of class rooms, laboratory, library with over 1000 volumes of reference books, charts, pamphlets and nursing journals, an assembly room, and a very attractively furnished reception room. A very complete Medical Library is located on the eighteenth floor of the Main Building and frequently used for reference reading by the faculty and students of the School of Nursing. The hospital with its capacity for 515 patients is approved by the American Hospital Association, the American Medical Association and the American College of Surgeons. It is approved by the American Medical Association for experience for both internes and residents. There are 135 ward beds for medical and surgical patients for men and women. For semi private and moderate cost private accommodations there are 92, and in Smith Memorial private rooms 115. The specialized services: in the children's department we have 54 beds; in the obstetrical 42 beds for mothers and 53 bassinets (in June 1939 the capacity for mothers will be increased); in the psychiatric department capacity for 11 patients (to be increased in June 1939 to 25). Our students have experience in our out patient department under the guidance of a teaching supervisor where they are introduced to case investigation and home visiting. In 1938 our out patient department had 60,389 visits, averaging 200 a day.

The facilities of our own hospital are augmented by affiliations for the study of contagious diseases, part of our students going to Municipal Contagious Disease Hospital for two months and part to Cook County Hospital for three months, where, besides receiving two months in the study and care of communicable diseases, they have an added month in the medical department. A few selected students also have the opportunity for a two months' affiliation with the Visiting Nurse Association.

## REQUIREMENTS FOR ADMISSION

Applicants for admission to St. Luke's Hospital School of Nursing must obtain application forms to be filled out and returned to the Director of Nursing. Classes are admitted semiannually, March first and October first. Each applicant must present credentials showing the completion of a four year course from a high school approved by the North Central Association of Colleges and Secondary Schools, or some other standardizing agency.

In the selection of students preference is given to those who show evidence of high scholastic achievement and outstanding cultural advantages.

Admission is limited to applicants between 19 and 30 years of age, who can show testimonials of good character and seriousness of purpose. The School considers it inadvisable to admit or retain married women.

The advisable high school program for students to pursue who wish to prepare for admission in nursing constitutes the following courses:

English—4 credits

Foreign Language—2 to 4 credits

Science—2 to 4 credits

Mathematics—2 to 3 credits

Social Science (History, Civics, Government)—2 to 4 credits

Electives (Music, Art, Domestic Science)—A maximum of 4 credits

*Health* ✓

The applicant is required to present a report of physical examination made by her family physician, this report submitting that the applicant is without physical ailment or defect that would prove a handicap in nursing. All remediable physical defects are to be corrected before entrance. Certification showing immunization against small-pox and typhoid fever within one year of entrance, is also required, as is a statement from the family dentist, testifying to the satisfactory condition of the teeth. Blanks are supplied the applicant for the presentation of these reports.

## EXPENSES ✓

*Registration Fee*

Students who have been admitted to the school pay a registration fee of ten dollars (\$10.00) in advance, to guarantee a room reservation in the nurses' home.

*Entrance Fees*

Upon the day of entrance, students pay a tuition fee of ninety dollars (\$90.00) in addition to a ten dollar (\$10.00) laboratory fee, and approximately thirty-five dollars (\$35.00) for textbooks and other incidental expenses.

The entrance and laboratory fees are never refunded if a student

withdraws from the school or is dismissed, and these fees are not refunded if a student is not retained in the school because of inferior class work or of physical incapacity.

A deposit of one dollar is made for room keys, but this fee is refunded when the student leaves the school, upon the return of the keys.

### *Other School Expenses*

In addition to the fees paid in the first year, students are requested to pay approximately twenty dollars (\$20.00) for textbooks during the second and third school years.

\* The fees to be paid are the following:

Registration Fee .....	\$10.00
Tuition Fee .....	90.00
Laboratory Fee .....	10.00
Textbooks and other incidental expenses .....	35.00
Textbooks (second and third years) .....	20.00
Total .....	<u>\$165.00</u>

### *Personal Expenses*

The student's personal expenses will depend upon her individual taste and financial means. There is no way student nurses may earn money while pursuing their studies, as their entire time is occupied in carrying out the school program. With careful planning most students are able to get along very well if they have one hundred and fifty dollars a year available for personal expenses. ✓

### STUDENT HEALTH PROGRAM

The health program is conducted under the supervision of the Welfare Director who endeavors to teach the students principles of personal hygiene and their practical application in the promotion of health. Upon arrival each student is given a careful physical examination, including an x-ray of the chest. ✓

Students are urged to report promptly any indisposition. When ill they are hospitalized and attended by members of the Medical Staff of St. Luke's Hospital. The School of Nursing, however, will not assume responsibility for medical care for illness due to conditions which existed prior to the student's entrance into the School.

Health examinations are given each year, and recommendations for the welfare of each student are carefully followed.

Time lost because of illness must be made up.

### VACATION AND ABSENCE

Students are allowed four weeks of vacation each year or twelve weeks during the three years. Vacations are usually planned during the months of June, July, August and September of each year. Students are not permitted an extension of vacation time, and will be

---

\* The fees to be paid are subject to change.

considered on leave of absence if they do not return on scheduled time. They will then be reinstated at the convenience of the school. Neither are students permitted to be absent from the school for personal reasons, except in the case of extreme illness of members of their immediate families. Students are not granted leaves of absence to nurse relatives.

#### RELIGIOUS INFLUENCE

While St. Luke's Hospital was founded under the direction of leaders in the Episcopal Church, the question of creed never enters into its work, either as to patients or the selection of students in the school. Grace Episcopal Church is closely affiliated with St. Luke's Hospital and is located on Indiana Avenue, adjoining the Hospital. Daily chapel services are conducted for the nurses by the Chaplain. Students are encouraged to attend church services of their preference at least once on Sunday.

#### RESIDENCES

Three floors in the Main Building are used for housing freshman students. Two apartment buildings adjoining Smith Memorial on Michigan Avenue house the junior students. Stickney House adjacent to the Main Building to the north on Indiana Avenue is used exclusively for senior students.

#### STUDENT ACTIVITIES

The Herman H. Hettler, Jr., Fund was established in 1930 to be used for the comfort and pleasure of the nurses. The income from this bequest of ten thousand dollars materially aids in working out worth while extracurricular program.

Through the Nursing School Committee of the Woman's Board, as well as through individual members, the social and home life of the student nurses has been made attractive and comfortable.

Each class has its own organization, officers and faculty advisor and throughout the year many special parties and teas are enjoyed. All recreational activities are planned in accordance with the desires and pleasures of the student group.

#### STANDARD OF CONDUCT

The conduct expected of students is such as any self-respecting earnest woman will recognize as embodying only those requirements that are fair and necessary in an institution of this kind.

House regulations in printed form are presented to the student upon her arrival, and it is understood that her presence in the school indicates her perfect willingness to cooperate with the school administration in maintaining these regulations.

#### SCHOLASTIC STANDARDS

Attendance upon all scheduled classes is obligatory. Only illness is accepted as an excuse for absence. Written examinations are given at the conclusion of all courses, upon which a grade of 75%

is required for credit. All courses must be completed satisfactorily before the student will be presented to the State Department of Registration as eligible for state examination and registration.

Students must successfully pass examinations in the preclinical period in order to continue their education.

Upper class students may retake an examination **once only**. A fee of ten dollars is charged for retaking an examination.

#### LOAN FUND

A loan fund has been established by Mr. Charles H. Schweppe, President of the Board of Trustees of St. Luke's Hospital. After the completion of the first year in the school, small loans are available to students who need financial assistance and who have demonstrated a particular fitness for nursing.

#### PRIZES AND AWARDS

In accordance with terms of the particular gifts, there are five special awards and prizes offered to students upon graduation from St. Luke's Hospital School of Nursing. They are the following:

*The Mrs. Charles H. Morse Honor Award* is offered annually to a student who ranks as the most outstanding "all around" nurse.

*An Anonymous Award* is given annually to a student who demonstrates excellence in bedside nursing.

*The Woman's Board of St. Luke's Hospital Award* is offered each year to a student showing outstanding ability as an operating room nurse.

*The Woman's Board of St. Luke's Hospital Award* is given annually to the most outstanding nurse in pediatric nursing.

*The Harriet Fulmer Prize* is awarded annually to a student in the graduating class with the highest scholastic standing.

#### GRADUATION AND AFTER

The diploma and pin of the school are granted to students who have successfully completed the required course in nursing. Commencement exercises are held at the close of the school year. The hospital and school continue to be interested in the nurse after graduation and endeavor to give her assistance in securing desirable positions in the phase of nursing she is best qualified to enter.

In order to practice as a Registered Nurse, graduates are required to pass the examination given by the Department of Registration and Education of the State of Illinois. This entitles the nurse to registration by reciprocity or examination in other states.

All graduates of the School in good standing and registered nurses are eligible for membership in the St. Luke's Hospital Alumnae Association. This Association was organized in 1897 and is helpful in maintaining high professional standards among the graduates of the School. Membership in the Alumnae Association admits the graduate to the district, state and national nursing organizations. She is also eligible for membership in the American Red Cross Nursing Service.

## CURRICULUM

### BIOLOGICAL SCIENCES

#### *Nursing 101, Anatomy and Physiology.*

Lectures, laboratory work and demonstrations designed to give fundamental knowledge of structure and function of the various systems of the human body. Microscopic demonstrations, animal dissection, and museum preparations are shown in the laboratory. Demonstrations covering the principal functions of the neuromuscular, sensory and nervous systems, circulatory, capillary and lymphatic systems, the respiratory system, the genito-urinary system, digestion, metabolism, the endocrines, and reproduction. The physiological processes that will be of special interest to nurses are stressed. First year, first term. (Lectures, 30 hrs., laboratory and demonstrations, 60 hrs.) Miss Parker.

#### *Nursing 103, Microbiology.*

A course covering the fundamental aspects of bacteriology, with particular reference to pathogenic organisms, sources and modes of infection, means of diagnosis, and the methods of prevention of infectious diseases. Special stress is placed on the various phases of immunity. The laboratory demonstrations and practice includes methods of growth, diagnosis, destruction of disease organisms, and diagnostic tests. First year, first term. (Lectures, 15 hrs., laboratory and demonstrations, 30 hrs.) Miss Parker.

#### *Nursing 102, Chemistry.*

This course, consisting of lectures and laboratory work represents a careful selection of content from general inorganic, organic and physiological chemistry, and the application of the principles of chemistry to nursing. First year, first term. (Lectures, 15 hrs., laboratory, 30 hrs.) Miss Hakansson.

#### *Nursing 105, Elementary General Pathology.*

Lectures and laboratory work, including the discussion of the principle causes that lead to disease; the nature of some of the more common disease processes, the meaning of terms used in describing pathological conditions and the methods used in performing laboratory tests. First year, first term. (Lectures and laboratory work, 15 hrs.) Miss Hakansson.

### PHARMACOLOGY

#### *Pharmacology 109, Solutions and Dosage.*

Lectures and laboratory work giving principles of preparing solutions, source, use and toxicology of disinfectants and antiseptics, methods of administration of drugs. Laboratory work includes the actual preparation of solutions. First year, first term. (Lectures, 24 hrs., laboratory 6 hrs.) Miss Parker.

#### *Pharmacology 122, Materia Medica and Therapeutics.*

A course including source, preparations, action, use, administration, dosage, poisonous symptoms and treatment of the principal drugs of the various groups. First year, second term. (Lectures, 30 hrs.) Miss Parker.

### SOCIAL ASPECTS OF NURSING

#### *Nursing 106, Ethical Basis of Nursing I.*

This course deals with the ethical and philosophical principles related to nursing. The principles of guidance and assistance in working out professional problems, individual and group relationship. First year, first term. (Lectures, 15 hrs.) Miss McConnell.

*Nursing 200, Ethical Basis of Nursing II, Professional Adjustment and Survey of the Nursing Field.*

This course deals with the problems the nurse will encounter in the varied branches of nursing, the problems of adjusting to such situations, the survey of the nursing field; the professional nursing organizations and the opportunity and responsibility of the individual nurse in the support of the organizations. Third year, first term. (Lectures and discussions, 30 hrs.) Miss McConnell.

*Nursing 107, History of Nursing.*

This course deals with the field of nursing as a whole. The origin of nursing, and the development of nursing from primitive peoples to modern times. First year, first term. (Lectures and discussions, 15 hrs.) Miss Hakansson.

PUBLIC HEALTH NURSING AND SOCIAL SCIENCE

*Nursing 111, Introduction to the Study of Society I.*

This course deals with modern social conditions and is designed to give the student nurse a practical knowledge of the methods of safeguarding and protecting the life of individuals and of the community with special reference to housing, employment, the family, nationality and social groups. To sewage and garbage disposal, water and milk supply, Federal inspection of slaughter houses, restaurants and food protection. Other community resources such as libraries, planetariums, museums, playgrounds, etc. First year, first term. (Lectures and field trips, 25 hrs.) Miss Hakansson.

*Nursing 205, Principles of Public Health Nursing II.*

The principles of Public Health Nursing and their application in the special fields such as V.N.A., school nursing, nursery schools, infant welfare, prenatal and post-natal clinics, industrial nursing, venereal clinics, and many others are considered from the standpoint of the individual nurse, the organization, administration and support of the service. A general picture is presented to the student nurse of the fundamental problems facing modern society with emphasis laid upon the close relation between health, social and economic problems. Third year, first term. (Lectures, 25 hrs.) Miss Stolp.

PRINCIPLES AND PRACTICE OF NURSING

*Nursing 112, Nursing Arts I.*

The fundamental principles underlying nursing technique are emphasized and applied. The principles of hospital economy as related to the environment of the patient, and the principles and practice of bandaging are included in this course. The demonstrations and the practice of nursing techniques in the classroom are closely correlated in the supervised practice on the wards. First year, first term. (Lectures, 30 hrs., classroom demonstrations and ward practice, 132 hrs.) Miss Wham.

*Nursing 115, Nursing Arts II.*

This course presents the more comprehensive and unusual techniques and skills in the care of the patient and is a continuation of Nursing Arts I. First year, second term. (Lectures 14 hrs., classroom demonstration and practice, 26 hrs.) Miss Wham.

*Nursing 110, Psychology.*

This course deals with the principles of study and of learning processes and the general principles of behavior, emphasizing the application of these principles to the larger social problems of the entire nursing field. First year, first term. (Lectures, 30 hrs.) Miss Fenimore.

*Nursing 104, Personal Hygiene.*

This course deals with the principles of good health as a foundation for personal well being and professional success, emphasizing the function of the nurse as a teacher of health. First year, first term. (Lectures, 15 hrs.) \_\_\_\_\_

*Nursing 105, Elementary General Pathology.*

Lectures and laboratory work, including the discussion of the principle causes that lead to disease; the nature of some of the more common disease processes, the meaning of terms used in describing pathological conditions and the methods used in performing laboratory tests. First year, first term. (Lectures, 15 hrs.) Miss Hakansson.

*Nursing 121, Case Study.*

A course of lectures and conferences designed to present the fundamental principles underlying the application of case method to the study and observation of the patient and his environment, the family, social status, etc. First year, second term. (Lectures, 10 hrs.) \_\_\_\_\_

## FOODS AND NUTRITION

*Nutrition and Cookery 108, (Nutrition I).*

This course, consisting of lectures and laboratory work on the preparation of normal, balanced diets for adults and children is based on the principles of normal nutrition and the application of these principles to individuals and family groups. First year, first term. (Lectures, 15 hrs., laboratory, 30 hrs.) Miss Killinger.

*Diet in Disease 114, (Nutrition II).*

A study of therapeutic diets, the underlying principles and theories of modern methods in the treatment of disease, such as diabetes, nephritis, etc. First year, second term. (Lectures, 15 hrs.) Miss Killinger.

## MEDICINE

*Nursing 116, Principles of Medicine.*

A course of lectures and discussion in internal medicine dealing with the causes, symptoms, treatment, prognosis, complications and convalescence of medical diseases, together with lectures and bronchoscopic lantern slide demonstrations of foreign bodies in the respiratory and alimentary system. First year, second term. (Lectures, 20 hrs.) Dr. Richard B. Capps, Dr. Carl Johnson, Dr. Paul Holinger.

*Nursing 117, Principles of Medical Nursing.*

Classes and demonstrations emphasizing the nursing care, prevention and treatment of medical diseases, including oxygen therapy, basal metabolism, electro cardiogram. First year, second term. (Lectures and demonstrations, 10 hrs.) Dr. Morrey, Mrs. Marland, Mrs. Babcock.

## SURGERY

*Nursing 118, Principles of Surgery.*

A course of lectures and discussions in surgical diseases dealing with the pathology, disturbed physiology and the predisposing causes of the diseases treated by surgery. First year, second term. (Lectures, 15 hrs.) Dr. Burton R. Bancroft.

*Nursing 119, Principles of Surgical Nursing.*

Classes and demonstrations emphasizing the nursing care, prevention and

treatment of surgical diseases. First year, second term. (Lectures and discussion, 15 hrs.) Miss Van de Steeg.

*Nursing 120, Principles of Orthopedics and Fractures.*

A course of lectures and clinics dealing with orthopedic surgery and fractures. The principles and practice of nursing as related to orthopedic diseases and fractures. First year, second term. (Lectures and clinics, 12 hrs.) Dr. Lambert, Dr. Hark, Dr. Norcross, Miss Wittmack.

*Nursing 130, Principles of Operating Room Technique.*

A course of lectures and demonstrations dealing with the underlying principles in the conduct of an operating room, personnel, equipment, procedure. A practical course to acquire the knowledge and skill necessary for surgical and medical asepsis. Second year, first term. (Lectures and demonstrations, 15 hrs.) Miss Ante.

*Nursing 131, Principles of Anesthesia.*

A course of lectures dealing with the underlying principles of anesthesia, the danger points in the anesthetic state and the care of the patient immediately before and after the administration of anesthesia. Second year, first term. (Lectures, 5 hrs.) Miss Tyler.

*Nursing 133, Disease of Ear, Nose and Throat.*

A course of lectures emphasizing the anatomy and physiology of the ear, nose and throat; the diseases of these organs, and the subsequent treatment of these diseases. Second year, first term. (Lectures, 10 hrs.) Dr. Kurtz, Miss Boies.

*Nursing 134, Diseases of the Eye.*

A course of lectures emphasizing the anatomy and physiology of the eye; diseases of the eye, surgery of the eye, nursing care and treatment of these diseases, and demonstrations of methods of examination. Second year, first term. (Lectures, 10 hrs.) Dr. Clark, Miss Boies.

*Nursing 136, Principles of Gynecology.*

A course of lectures covering the major subjects of gynecology, diagnosis and treatment of infections, tumors, obstetrical injuries, functional disorders, operative procedures and the care of preoperative and postoperative patients. Second year, first term. (Lectures, 10 hrs.) Dr. Edwards.

*Nursing 137, Principles of Gynecological Nursing.*

A course of lectures and demonstrations dealing with the underlying principles and practice of gynecological nursing. Second year, first term. (Lectures, 5 hrs.) Miss Van de Steeg.

*Nursing 142, Principles of Urology and Urological Nursing.*

A course of lectures and demonstrations on the diseases of the kidney, ureter, bladder, prostate and external genitalia, their diagnosis, treatment and nursing care. Second year, first term. (Lectures, 10 hrs.) Dr. McNally, Miss Erickson.

*Nursing 144, First Aid.*

A course of lectures and laboratory work dealing with the underlying principles of rendering first aid. Successful completion of this course leads to the American Red Cross First Aid Certificate. Second year, second term. (Lectures and laboratory, 18 hrs.) Dr. Morrow, Dr. Jansey, Miss Parker.

OBSTETRICS

*Nursing 139, Principles of Obstetrics.*

A course of lectures dealing with the physiological and the pathological aspects

of pregnancy, prenatal care of the mother, parturition, puerperium and the management of normal and abnormal labor. Second year, second term, (Lectures, 15 hrs.) Dr. Cary, Dr. Gough, Dr. Ladd, Dr. Finola.

*Nursing 140, Principles of Obstetrical Nursing.*

A course of lectures and demonstrations dealing with the nurse's part in the program for complete maternity care, emphasizing her responsibilities in regard to teaching, procedures and techniques in the care of mother and infant. Second year, second term. (Lectures, 15 hrs.) Miss Henry.

PHYSIOTHERAPY

*Nursing 128, Physiotherapy and Massage.*

A course of lectures and laboratory work dealing with the various procedures and the indication for their use in the treatment of diseases. Second year, first term. (Lectures, 5 hrs., laboratory, 16 hrs.) Dr. Coulter, Miss Strunk.

OCCUPATIONAL THERAPY

*Nursing 129, Occupational Therapy.*

A course of lectures and discussions dealing with the therapeutic value of creative work and combining manual and mental effort on the part of the patient in the management of certain diseases. Second year, first term. (Lectures, 5 hrs.) Dr. Coulter, Miss Vetting.

DERMATOLOGY

*Nursing 145, Dermatology.*

A course of lectures and lantern slide demonstrations covering the anatomy and physiology of the skin, causes, symptoms, treatment, complications and prognosis of the more common and important skin diseases. Second year, second term. (Lectures, 6 hrs.) Dr. Oliver, Dr. Smith, Miss Hakansson.

VENEREAL DISEASES

*Nursing 146, Venereal Diseases.*

A course of lectures dealing with the causes, symptoms, mode of infection, treatment, nursing care, complications and prognosis of venereal diseases. Second year, second term. (Lectures, 6 hrs.) Dr. Grauer, Miss Hakansson.

PEDIATRICS

*Nursing 148, Principles of Pediatrics.*

A course of lectures dealing with the underlying principles of pediatrics including common disorders of infancy and childhood, infant feeding and communicable diseases of childhood, psychological development and behavior problems. Second year, second term. (Lectures, 20 hrs.) Dr. Gibson and associates.

*Nursing 149, Principles of Pediatric Nursing.*

A course of lectures and demonstrations dealing with the principles and practice of nursing adapted to the care of infants and children. Second year, second term. (Lectures and demonstrations, 20 hrs.) Miss Baird.

NEUROLOGY

*Nursing 201, Principles of Neurology.*

A course of lectures dealing with the causes, symptoms, treatment, nursing care, complications and prognosis of organic diseases of the central nervous system. Third year, first term. (Lectures, 15 hrs.) Dr. Mackay, Miss Hakansson.

## PSYCHIATRY

*Nursing 202, Principles of Psychiatry.*

A course of lectures dealing with the structure of personality and of abnormal personality manifestations, psychoneuroses, psychoses, mental mechanism, mental hygiene. Third year, first term. (Lectures, 15 hrs.) Dr. Solomon, Miss Hakansson.

*Nursing 203, Principles of Psychiatric Nursing.*

A course of lectures and demonstrations in the principles and practice of nursing as applied to the care of the mentally ill patients emphasizing the role of the nurse in preventive work. Third year, first term. (Lectures, 15 hrs.) Miss Fenimore.

## AFFILIATIONS AND SELECTIVES

Communicable Diseases at Contagious Disease Hospital

*Nursing 204, Principles of Communicable Diseases.*

A course of lectures and discussions in communicable diseases dealing with the causes, symptoms, treatment, prognosis, complications and convalescence of communicable diseases. Third year, second term. (Lectures, 12 hrs.) Mrs. Elva Newcomb.

*Nursing 205, Principles of Communicable Disease Nursing.*

Classes and demonstrations emphasizing the nursing care, prevention and treatment of communicable diseases. Third year, second term. (Lectures and demonstrations, 22 hrs.) Mrs. Elva Newcomb.

Communicable Diseases at Cook County Hospital.

*Nursing 150, Principles of Communicable Diseases.*

Lectures on contagious diseases adapted to the needs of nurses. Third year, second or third term. (Lectures, 12 hrs.) Members of Medical Staff.

*Nursing 151, Principles in Communicable Disease Nursing.*

Lectures, classes and demonstrations covering the nursing care, recognition of complications and sequelae, general and specific methods of prevention of the various contagious diseases. Third year, second or third term. (Lectures, 12 hrs.) Misses Kendall and Stilwell.

*Nursing 109, Principles of Medical Nursing.*

Classes, clinics, demonstrations and quizzes on the nursing care of important medical diseases discussed in Course 110. Third year, second or third term. (Lectures, 12 hrs.) Miss Wolf.

*Nursing 254, Principles of Tuberculosis.*

Lectures and clinics presenting the etiology, pathology, symptoms and complications of the various forms and stages of tuberculosis in the child and adult. Third year, second or third term. (Lectures, 12 hrs.) Dr. Rosenblum.

*Nursing 255, Principles of Tuberculosis Nursing.*

Consists of lectures and demonstrations in all phases of the care of the tuberculous patients, with special emphasis on the public health and social aspects of the disease. Third year, second or third term. (Lectures, 12 hrs.) Misses Campbell and Porteous.

Selective at Visiting Nurse Association.

*Nursing 206, Principles of Public Health Nursing III.*

A course of lectures and discussions of the principles of public health nursing as it relates to Visiting Nursing. Third year, second or third term. (Lectures and discussions, 40 hrs.) Miss Mary Westphal and associates.

OUTLINE OF CURRICULUM

Department	Number	Descriptive Title	Lect. Hrs.	Lab. Hrs.
<i>First 16 weeks</i>				
Nursing	101	Anatomy and Physiology	30	60
Nursing	102	Chemistry	15	30
Nursing	103	Microbiology	15	30
Nursing	104	Personal Hygiene	15	
Nursing	105	Elementary General Pathology	15	
Nursing	106	Ethical Basis of Nursing I	15	
Nursing	107	History of Nursing	15	
Foods and Nutrition	108	(Nutrition I) Nutrition & Cookery	15	30
Pharmacology	109	Solution and Dosage	24	6
Nursing	110	Psychology	30	
Public Health Nursing and Social Science	111	Introduction to the Study of Society I (Public Sanitation)	25	
Nursing	112	Nursing Arts I	30	60
<i>Second and Third 16 weeks</i>				
Foods and Nutrition	114	(Nutrition II) Diet in Disease	15	
Nursing	115	Nursing Arts II	14	26
Nursing	116	Principles of Medicine	20	
Nursing	117	Principles of Medical Nursing	10	
Nursing	118	Principles of Surgery	15	
Nursing	119	Principles of Surgical Nursing	15	
Nursing	120	Principles of Orthopedics & Fractures	12	
Nursing	121	Case Study	10	
Pharmacology	122	Materia Medica and Therapeutics	30	
Foods and Nutrition	123	(Nutrition III) Practice in Diet Laboratory		
Nursing	124	Practice in Medical Nursing		
Nursing	125	Practice in Surgical Nursing		
Nursing	126	Practice in Orthopedic Nursing		
Nursing	127	Practice in Fracture Nursing		
Physiotherapy	128	Physiotherapy and Massage	5	16
Occupational therapy	129	Occupational therapy	5	
<i>Second Year. First 16 weeks</i>				
Nursing	130	Principles of O.R. Technique	15	
Nursing	131	Principles of Anaesthesia	5	
Nursing	132	Practice in the Operating Room		
Nursing	133	Diseases of Ear, Nose and Throat	10	
Nursing	134	Diseases of Eye	10	
Nursing	135	Practice in Eye, Ear, Nose and Throat		
Nursing	136	Principles of Gynecology	10	
Nursing	137	Principles of Gynecological Nursing	5	
Nursing	138	Practice in Gynecological Nursing		
<i>Second and Third 16 weeks</i>				
Nursing	139	Principles of Obstetrics	15	
Nursing	140	Principles of Obstetrical Nursing	15	
Nursing	141	Practice in Obstetrical Nursing		
Nursing	142	Principles of Urology and Urological Nursing	10	
Nursing	143	Practice in Genito-Urinary Nursing		
Nursing	144	First Aid	18	
Nursing	145	Dermatology	6	

<i>Second Year. Second and Third 16 Weeks—cont'd</i>				
Nursing	146	Venereal Diseases	6	
Nursing	147	Practice in Dermatology and Venereal Diseases		
Nursing	148	Principles of Pediatrics	20	
Nursing	149	Principles of Pediatric Nursing	20	
Nursing	150	Practice in Pediatric Nursing		
<i>Third Year, First, Second and Third 16 weeks</i>				
Communicable Diseases	254	Principles of Tuberculosis	12	
Communicable Diseases	255	Principles of Tuberculosis Nursing	12	
Communicable Diseases	256	Practice in Tuberculosis Nursing		
Communicable Diseases	150	Principles of Communicable Diseases	12	
Communicable Diseases	151	Principles of Communicable Disease Nursing	12	
Communicable Diseases		Practice in Communicable Disease Nursing		
Nursing	111	Principles of Medical Nursing	12	
Nursing	112	Practice in Medical Nursing		
Communicable Diseases		Principles of Communicable Diseases	12	
Communicable Diseases		Principles of Communicable Disease Nursing	22	
Communicable Diseases		Practice in Communicable Disease Nursing		
Nursing	200	Ethical Basis of Nursing II		
		Professional Adjustment and Survey of the Nursing Field	30

Public Health Nursing and Social Science	207	Practice in Public Health Nursing		
Total			720	258
Total theory hours			978	

NOTE: Students affiliating at Cook County Hospital have 978 hours of theory, and the students affiliating at Municipal Contagious Disease Hospital have 944 hours of theory.

## SUMMARY OF COURSES IN HOURS

	Theory	Laboratory
First Year—48 weeks	395	258
Second year—48 weeks	165	—
Third Year—48 weeks		
(a) Cook County Hospital	160	—
(b) Municipal Contagious Disease Hospital	134	—

Total for students affiliating at Cook County Hospital	720	258
Total for students affiliating at Municipal Contagious Disease Hospital	686	258
Total hours of theory is 978 including the lectures at Cook County Hospital and at Municipal Contagious Disease Hospital, Chicago.		
Total number of lecture hours.....	720	
Total number of laboratory hours.....	258	

NOTE: The students having affiliation at Cook County Hospital have a total of 720 lecture hours plus 258 laboratory hours or a grand total of 978 hours of theory.

The students having affiliation at Municipal Contagious Disease Hospital have a total of 686 lecture hours plus 258 laboratory hours or a grand total of 944 hours of theory.

## SUMMARY OF THE CLINICAL EXPERIENCE

Preclinical period . . . . .	16 weeks	72 nursing hours
Medical and surgical nursing . . . .	47 weeks	1645 nursing hours
Diet kitchen . . . . .	6 weeks	210 nursing hours
Operating room . . . . .	13 weeks	546 nursing hours
Obstetrical nursing . . . . .	17 weeks	595 nursing hours
Pediatric nursing . . . . .	13 weeks	531 nursing hours
Psychiatric nursing . . . . .	8 weeks	378 nursing hours
Out patient and social service depart- ments, and the dispensary . . . .	8 weeks	378 nursing hours
Affiliations:		
*Contagious Disease Hospital . . . .	8 weeks	384 nursing hours
†Visiting Nurse Association . . . .	8 weeks	392 nursing hours
*Cook County School of Nursing . . . . .	13 weeks	548 nursing hours

\* All students are offered experience in communicable disease nursing at the Municipal Disease Hospital, or at the Cook County School of Nursing.

† Twenty-four students are selected, each year, and receive experience in public health nursing, in the Visiting Nurse Association.

Four weeks of vacation is given in the summer of each year.

## CLINICAL EXPERIENCE IN NURSING

Two groups of students are admitted to the school yearly, and the length of the nursing program is 144 weeks, exclusive of 12 weeks of vacation.

The first sixteen weeks is essentially a preclinical period, in which the biological, the physical, and the medical and social sciences are studied. This group of courses is integrated with the elementary techniques in nursing, and when evidence of adequate theoretical knowledge, and nursing skill is demonstrated, experience is given in the wards, under constant supervision.

The remaining two terms of the first year, and the first two terms of the second year are devoted to classroom instruction and clinical experience in all phases of medical and surgical nursing, diet kitchen experience, and practice in operating room procedures.

In the last term of the second year, and the first term of the third year, emphasis is placed upon the principles and practical experience of obstetrical and pediatric nursing.

During the last two terms of the third year, a comprehensive theoretical and practical service is given in the psychiatric unit, the dispensary, and the out patient and social service departments. And through affiliations with the Municipal Contagious Disease Hospital, and the Cook County School of Nursing, all students receive additional classroom and clinical experience in communicable disease nursing.

Supplementary to the affiliation at the Municipal Contagious Disease Hospital, twenty-four selected students are offered public health experience in the Visiting Nurse Association, each year.
